

## About Prompt & Play

Prompt & Play provides a safe place for children and teens to develop social and daily living skills through exploration and direction. We increase environmental awareness, positive social interactions, and promote overall happiness.

Whether they are engaged through one-on-one sessions or as member of our various groups, children at Prompt & Play work towards their individual goals by learning:

- To take on a positive view of their social interactions
- Take initiative in their own social behaviors
- To become more self-sufficient and independent
- To gain an understanding of social cues and expectations
- And much, much more...
